**Statement regarding Fraudulent French Pinot Noir**

“We are aware of the TTB’s recent announcement of additional documentation that U.S. wine importers are now required to attain for Pinot Noir sourced from the Lanquedoc-Rousillon region in France and are requiring such documentation from all of our French suppliers. We have terminated our relationship with our former supplier, Sieur D’Arques, following their conviction by a French court. Our focus continues to be maintaining the confidence placed in us by our customers.”
